

A request and comments on why FM traslator stations like K-LOVE are extremly valuable. It helps me find out about local events that are family friendly and I can take my kids without worring about what will be going on. If KLOVE has it advertised on air, I know it is safe for my family. I truly don't know WHAT I would be able to listen to with my kids if KLOVE were not on the air. I don't have to worry about the content of what is said. On regular stations you Never know what will come out of the DJs mouths and would be heard and repeated by my boys! I love having KLOVE and support them in prayer and with my own finances! PLEASE make sure this station stays on the air nationwide!!
